WESTERN STATES CONTRACTING ALLIANCE
MASTER PRICE AGREEMENT
for
COMPUTER EQUIPMENT, SOFTWARE, PERIPHERALS AND RELATED
SERVICES

Number A85627

This Agreement is made and entered into by Sun Microsystems, Inc. ("Contractor") and the Department of Administration ("State") on behalf of the State of Minnesota, participating members of the National Association of State Procurement officials (NASPO), members of the Western States Contracting Alliance (WSCA) and other authorized Participating States and Participating Entities.

RECITALS

WHEREAS, the State has the need to purchase and the Contractor desire to sell; and,

WHEREAS, the State has the authority to offer contracts to CPV members of the State of Minnesota and to other states.

NOW, THEREFORE, in consideration of the mutual promises contained herein, the parties agree as follows:

INTENT AND PURPOSE

The intent and purpose of this Agreement is to establish a contractual relationship with equipment manufacturers to provide, warrant, and offer maintenance services on **ALL** products proposed in their response to the RFP issued by the State of Minnesota. The Contractor may use subcontractors to provide the warranty and/or maintenance services; however the Contractor will be responsible for working with the equipment manufacturer on behalf of the Purchasing Entity and for the timeliness and quality of all services provided.

It is the further intent of this Agreement that leasing or rental agreements are not included. Each Participating Entity is allowed to negotiate leasing or rental agreements into their Participating Addendum, if they have the legal authority to enter into these types of agreements without going through a competitive process.

The Agreement is **NOT** for the purchase of major, large hardware or hardware and software offerings. In general, individual units/configurations should not exceed \$100,000 each. It is the expressed intent of some of the Participating States to set this level at not to exceed \$25,000 each, or \$50,000. Contractors must be willing to comply with these restrictions by agreeing to supply products in those price ranges only. This **IS NOT** a restriction on how many units/configurations can be purchased, but on the value of each individual unit/configuration. Individual Participating States and Participating Entities may set specific limits in a participating addendum above the \$100,000, with the prior approval of the WSCA Directors.

Contractors may offer, but participating states and entities do not have to accept, limited professional services related **ONLY** to the equipment and configuration of the equipment purchased through the Agreement.

1. **Definitions**

"Announced Promotional Price" are prices offered nationally to all customers for defined time periods under predefined terms and conditions.

"Confidential Information" means any information disclosed by one party to another party under the Master Price Agreement or any Participating Addendum of a Participating State or Participating Entity.

"Contract" means an agreement for the procurement of items of tangible personal property or services.

"Contract Administrator" means to an individual appointed by the State to administer this Agreement on behalf of the State of Minnesota, the participating NASPO and WSCA members, and other authorized purchasers.

"Contractor" shall mean successful Responder who enters into a binding Master Price Agreement. The Contractor is responsible for all sales, support, warranty, and maintenance services for the products included in this Agreement. The Contractor must manufacture or take direct, non-assignable, legal responsibility for the manufacture of the equipment and warranty thereof.

"CPV Member" is any governmental unit having independent policy making and appropriating authority, that is a member of Minnesota's Cooperative Purchasing Venture (CPV) program.

"CPV Program" The Cooperative Purchasing Venture (CPV) program, as established by Minn. Stat. § 16C.03, subd. 10, authorizes the Commissioner of Administration to "enter into a cooperative purchasing agreement for the provision of goods, services, and utilities with [governmental entities] ..., as described in section 471.59, subdivision 1." Based on this authority, the commissioner of Administration, through the Materials Management Division (MMD), enters into a joint powers agreement that designates MMD as the authorized purchasing agent for the governmental entity. It is not legal for governmental entities that are not members of the CPV program to purchase from a State contract. Vendors are free to respond to other solicitations with the same prices they offer under a contract, but that is not considered use of the "State contract price."

"Cumulative Volume Discount" means a contractual, cumulative, permanent volume discount based on dollars resulting from the cumulative purchases by all governmental purchasers for the duration of their Master Price Agreement.

"Documentation" refers to manuals, handbooks, and other publications listed in the PSS, or supplied with products listed in the PSS, or supplied in connection with services. Documentation may be provided on magnetic media or may be downloaded from the Contractor's web site.

Energy Star qualified computers and monitors automatically power down to 15 watts or less when not in use and may actually last longer than conventional products because they spend a large portion of time in a low-power sleep mode. For additional information on the Energy Star program, including product specifications and a list of qualifying products, visit the Energy Star website at <http://www.energystar.gov>.

"Equipment" means workstations, desktop, servers, and storage drives, including upgrade components such as memory, storage drives, and spare parts.

"FCC" means the Federal Communications Commission or successor federal agency. In the event of deregulation, this term applies to one or more state regulatory agencies or other governing bodies charged to perform the same, or similar, role.

"General Price Reduction Price" means a Sun Commercial List price offered to consumer, business or governmental purchaser at prices lower than The Sun Commercial List prices used as a basis for the PSS pricing. General price reduction prices will be reflected in the PSS as soon as practical.

"ISO 14001" is the conformance standard within the family of ISO 14000 documents developed by the International Organization for Standardization (ISO) in Geneva, Switzerland. Similar in structure to the ISO 9000 quality management system standard, ISO 14001 outlines key requirements companies should comply with in order to operate in an environmentally responsible manner. Utilizing ISO 14001, companies can merge environmental programs into one coherent system to efficiently manage all environmental activities. In short, ISO 14001 provides organizations with a way to demonstrate to their customers that their environmental processes and impact are effectively managed, continually improving, and part of the corporate management system. For more information, please refer to www.iso.org.

The manufacturer's name(s) shall appear on the computer equipment. **The Contractor shall provide warranty service and maintenance for equipment covered by this Agreement as well as a Takeback Program.**

"Master Price Agreement" means the contract that MMD will approve that contains the foundation terms and conditions for the acquisition of Contractor's products and/or services by Purchasing Entities. The "master price agreement" is a permissive price. In order for a Purchasing Entity to participate in a Master Price Agreement, the appropriate state procurement official or other designated procurement official must be a Participating State or Participating Entity.

"Materials Management Division" or "MMD" means the procurement official for the State of Minnesota or a designated representative.

"NASPO" means the National Association of State Procurement Officials

"Participating Addendum" means a bilateral agreement executed by the Contractor and a Participating State or political subdivision of a State that clarifies the operation of the price agreement for the State or political subdivision concerned, e.g. ordering procedures specific to a State or political subdivision and other specific language or other requirements. Terms and conditions contained in a Participating Addendum shall take precedence over the corresponding terms in the master price agreement. Additional terms and conditions may be added via the Participating Addendum. However, a Participating Addendum may not alter the scope of this Agreement or any other Participating Addendum. **Unless otherwise specified, the Participating Addendum shall renew consecutively with the Master Price Agreement.** One physically or digitally signed copy of each Participating Addendum shall be filed by the Contractor with the Contract Administrator within five (5) days after execution.

“Products and Services Schedule Prices” mean the maximum prices offered to Participating Entities exclusive of Announced Promotional Prices, Education Discount Prices, General Price Reductions, or Large Order Negotiated Prices. All such products and services shall be listed on the Contractor’s web site accessible via a URL.

“Purchase Order” means an electronic or paper document issued by the Purchasing Entity that directs the Contractor to deliver Products or Services pursuant to a Price Agreement.

No payment shall be made for any Products or Services until the Purchasing Entity has accepted the Products or Services. The Purchasing Entity will make every effort to notify the Contractor within thirty (30) calendar days following delivery of non-acceptance of a product or service. In the event the Contractor has not been notified within 30 days from delivery of the product or completion of the service, the product and/or service will be deemed accepted on the 31st day after delivery of product or completion of service.

B. **Payment of Invoice**

1. Payments shall be submitted to the Contractor at the address shown on the invoice, as long as the Contractor has exercised due diligence in notifying the State of Minnesota and/or the Purchasing Entity of any changes to that address. Payments shall be made in accordance with the applicable laws of the Purchasing Entity.

2. For Minnesota, per Minn. Stat. § 16A.124, payment shall be made to the Contractor within thirty (30) days following receipt of an undisputed invoice, merchandise or service whichever is later. C. **Payment of Taxes**

Payment of taxes for any money received under this agreement shall be the Contractor's sole responsibility and shall be reported under the Contractor's federal and state tax identification numbers. If a Purchasing Entity is not exempt from sales, gross receipts, or local option taxes for the transaction, the Contractor shall be reimbursed by the Purchasing Entity to the extent of any tax liability assessed.

D. Invoices

8. Termination

The following provisions are applicable in the event that the agreement is terminated.

A. Termination for Convenience

At any time, the State may terminate this agreement, in whole or in part, by giving the Contractor (30) days written notice; provided, however, neither the State nor a Purchasing Entity has the right to terminate a specific purchase order for convenience after it has been issued if the product is ultimately accepted. At any time, the Contractor may terminate this Agreement, in whole or in part, by giving the Contract Administrator sixty (60) days written notice. Such termination shall not relieve the Contractor of warranty or other Service obligations incurred under the terms of this Agreement. In the event of a cancellation, the Contractor shall be entitled to payment, determined on a pro rata basis, for work or services satisfactorily performed and accepted.

B. Termination for Cause

Either party may terminate this Agreement for cause based upon material breach of this Agreement by the other party, provided that the non-breaching party shall give the breaching party written notice specifying the breach and shall afford the breaching party a reasonable opportunity to correct the breach. If within thirty (30) days after receipt of a written notice the breaching party has not corrected the breach or, in the case of a breach that cannot be corrected in thirty (30) days, begun and proceeded in good faith to correct the breach, the non-breaching party may declare the breaching party in default and terminate the Agreement effective immediately. The non-breaching party shall retain any and all other remedies available to it under the law.

C. A Purchasing Entity's Rights

EXHIBIT B - COMPLAINT RESOLUTION

Sun's formal service escalation procedure is described in detail below. It is broken into four complaint categories: Service, Billing, Equipment and Order, and Issues.

A. Service Complaint Resolution Procedures

All service issues related to Sun Products and Support are handled directly by Sun. The following outlines how to initiate a support request and details the processes that are followed depending on the level of service support contracted with Sun.

To ensure consistent high-quality support, all support requests, problems and complaints can be coordinated through a toll-free call (1-800-USA-4SUN) to the Sun Services Customer Care Center (CCC) or through the Online Support Center (OSC) at: <https://osc-amer.sun.com/>. The Sun Customer Care Center takes the initial call for service. Should this problem or complain fail to be resolved it is forwarded to the Sun Escalation Center.

Sun Escalation Center

Escalations at Sun are handled based on a combination of rules, service levels and case-by-case severity. The process is designed to match the appropriate level of response to the customer's particular situation. Depending on the service level contracted by the customer (e.g., SunSpectrum Platinum, Gold or Silver service levels), customers benefit from an escalation process whereby complex or urgent problems are more rapidly escalated to Sun's senior support engineers. See Binder 2 Attachment C, "Sun Marketing Information" for service product descriptions for warranty and post-warranty support services.

An overview of the process:

- WSCA's service request is recorded and assigned to the appropriate Sun technical specialist.
- To maintain consistency of service and help ensure quality, the assigned specialist is given a limited period of time to isolate the exact problem and reach resolution.
- If resolution is not achieved within the set period, WSCA's case is automatically escalated to a senior support engineer for resolution.
- In the unlikely event there is a need for further escalation, the case is sent to a unique team of developers and engineers assembled specifically for WSCA's case in order to reach resolution.
- At the request of the Primary WSCA Account Manager, the Service Account Manager can compile a call history from the escalation tools maintained by the Customer Care Center and the field organizations. The Service Account Manager will develop a post-mortem report detailing actions taken to resolve the issue to the customer's satisfaction. Under Platinum or Gold service, and at the request of WSCA, the Service Account Manager will visit the customer site to discuss and evaluate the actions taken during the service call to define ways to improve future service delivery. WSCA Members who have subscribed to either Gold or Platinum service support can expect the following additional services: STAR Escalation Team and Time Based Notification Services.

B. Billing Complaints Resolution Procedures

All Sun inquiries will include the name of a Sun Financial Representative and phone number. The Sun Financial Representative will be the initial point of contact to resolve any billing complaints.

If the Sun Financial Representative is unable to resolve the billing complaint, then the WSCA Member should contact their Sun Account Manager. If at this time, the WSCA member feels the situation warrants it, the matter is escalated to the WSCA Primary Account Manager for resolution.

C. Order and Equipment Complaint Issues

All order and equipment issues can be resolved by calling Sun's Customer Services Support representative at 1.800.USA4Sun and enter prompt 5, then prompt 3, for State and Local Support Representative or prompt 4 for a Sun Educational Representative. These customer support representatives have processes and procedures in place to respond to customer issues within 24 hrs. If unsatisfied with the Customer Support Representative's response, a customer can escalate either to the Customer Support Team Lead or directly to the WSCA program office for resolution.

It is important to note that the "entry point" for complaint resolution may be different depending on whether the WSCA member is being serviced directly through Sun or being serviced indirectly through a Sun Value Added Reseller (VAR); however, if the issue needs to be elevated, final resolution will always be resolved by Sun.

D. Issue Complaints Procedures

In the event of a customer complaint issue, the customer's first point of contact is normally the local Sun Account Manager. This individual is empowered to engage the necessary resources in the local service area. Most issues are resolved readily at the local level. If necessary, the situation is elevated to executive management through the WSCA Program Office.

EXHIBIT C - VALUE ADDED SERVICES

A. Sun Installation Services

Sun Services can provide installation services to help WSCA customers quickly and effectively install hardware, build interfaces to other systems, consolidate server workloads, and migrate applications and data to a new environment. Detailed Installation Services descriptions can be found at <http://www.sun.com/service/consulting/installintegrate/index.html>.

B. Customer Ready Systems (CRS)

Sun Customer Ready Systems (CRS) program helps with design validation, integration and testing of Sun and third-party components. These integrated systems leave the Sun factory ready-to-deploy, allowing you to get more done with less risk, less overhead, while speeding deployments and the return on IT assets. The CRS program delivers solutions built in Sun's factories based on customer specifications. Additionally, the Sun CRS program offers a broad range of services to deliver complete life cycle management of the infrastructure.

C. Upgrade Assistance Program (UAP)

UAP allows the customer to trade their system in at any time ** so they get investment protection throughout the life cycle of the computing asset. UAP also provides value when moving from non-Sun equipment to the latest Sun products. The process is fast and simple. For example, Sun is offering a current promotion until March 2006 for an extra 20% off an Opteron X2100, X4100, or X4200 when the customer trades in either a Dell, IBM, or HP x86 system.

** System must be owned by original purchaser for a minimum of ninety days

The focus of Sun Educational Services is to enable an enterprise to stay ahead of constantly changing technologies through the education and training of an enterprise's most valuable asset, its people. Over 250,000 students each year are trained by Sun and its authorized centers through Web-based courses and at over 250 training sites located in more than 60 countries.
